PROFILE

Full stack developer with **4+ years at a product startup**, shipping whatever the product needs — real-time **AR try-on experiences** in the browser, **e-commerce platforms**, and **ERP-driven backends**. Equally at home on the frontend, backend, or platform layer; I own features end to end and pick up new stacks quickly as priorities shift.

TECHNICAL SKILLS

FRONTEND	React, TypeScript, JavaScript, Three.js / React Three Fiber, HTML5, CSS3
BACKEND	Node.js, Express, PHP, Python (Frappe), REST APIs
DATABASES	MySQL, MongoDB
PLATFORMS	Frappe / ERPNext, OpenCart (Journal theme), Google Cloud (GCP), Git
EXPLORING	Next.js, real-time 3D AR, generative AI, automation workflows (n8n, AI agents, MCP), cyber security, advanced debugging & bug reporting

EXPERIENCE

Full Stack Developer · Plushvie Retail Pvt. Ltd. Jan 2022 – Present
Ahmedabad, India · Products team

- Built the first versions of a **browser-based AR jewellery virtual try-on** and an **AR video-calling consultation experience** end to end with vanilla JavaScript, HTML, and Node.js / Express services on MySQL.
- Owned the **AR augmentation layer** of the rebuilt try-on application, implementing real-time rendering with **Three.js / React Three Fiber** on its React + TypeScript frontend.
- Developed the **e-commerce admin platform** (React, Node.js, MongoDB) — catalogue and order management, role-based access control, theme customisation, and activity logs.
- Building backend services on **Frappe / ERPNext** (Python), exposing REST API endpoints that power the mobile app and website.
- Delivered fast-turnaround **OpenCart storefronts** (Journal theme) and an OpenCart **admin dashboard** with inventory and preferences settings, with custom UI built in HTML, CSS and JavaScript.

Developer Intern · Plushvie Retail Pvt. Ltd. Oct 2021 – Jan 2022

- Built basic e-commerce storefronts with **OpenCart and PHP**, and handled the migration of a legacy **Magento instance on Google Cloud Platform** — earning a full-time offer in three months.

EDUCATION
